

Fredric Shernoff

GAME PRODUCER | PRODUCT DEVELOPER | EDUCATOR

Palm Beach Gardens, FL | 215-512-1255 | fshernoff@gmail.com | fshernoff.github.io

PROFESSIONAL SUMMARY

Game producer, product developer, and educator who turns creative, technical, and learning goals into shipped digital experiences. Independently designed and published a commercial Steam game; built classroom and school operations platforms; launched native mobile and streaming products; and led organizations, vendors, and multi-stakeholder work. Brings hands-on technical fluency, production discipline, classroom perspective, and deep Jewish education and community experience.

PRODUCTION STRENGTHS

- + **Game and product production:** scope, roadmaps, milestones, prioritization, risk management, playtesting, QA, launch, and iteration
- + **Creative direction:** gameplay loops, systems design, player experience, educational design, UI/UX, and constructive build feedback
- + **Technical fluency:** Unity, C#, Godot, React, TypeScript, Firebase, Swift/SwiftUI, Android, APIs, Git, automated testing, and CI/CD
- + **Leadership:** stakeholder translation, internal and external contributors, vendor coordination, documentation, operational systems, and community engagement
- + **AI-enabled workflow:** rapid prototyping, research, evaluation, automation, asset exploration, testing support, and responsible classroom use

RELEVANT EXPERIENCE

AI Teacher

Jupiter Community High School, School District of Palm Beach County | Current

- Develop and teach applied AI learning experiences that move students from responsible tool use and evaluation to project planning, creation, and reflection.
- Translate fast-changing technology into clear, age-appropriate workflows; coach students through ambiguous problems, iterative feedback, and working deliverables.
- Designed and built **Aegis**, a production-ready school operations platform with role-aware dashboards, public kiosks, real-time capacity controls, analytics, audit trails, and automated tests.

Independent Game Producer and Product Developer

Independent Ventures / Whitemarsh Games | 2010 - Present

- **Scorched Legacy:** independently scoped, designed, developed, balanced, playtested, and published a commercial PC artillery roguelike on [Steam](#); owned gameplay systems, UX, achievements, store materials, release, and iteration.
- **BizBattles:** created a [live-beta](#), teacher-led multiplayer business simulation with team decisions, changing market conditions, real-time class management, and concept-focused debriefs.
- **Additional work:** released [Data Center Tycoon](#) free on itch.io; developing the Unity narrative game **Divine Nuisance**; previously shipped MyFandom for iOS/Android and Draw Anything AI for iOS.

PROFESSIONAL EXPERIENCE, CONTINUED

Chief Executive Officer and Lead iOS Developer

Premier Streaming Network (Streaming Media Ventures, LLC) | 2022 - Present

- Led product and technical direction for a SwiftUI streaming platform from concept through delivery, coordinating business goals with content, design, engineering, and distribution needs.
- Built core platform capabilities including adaptive video streaming, authentication, API integrations, and real-time chat; established modular architecture and repeatable release workflows.
- Managed priorities, partnerships, quality, and iteration across a fast-moving product with multiple stakeholders and distribution requirements.

Co-Founder and Operations Manager

Open Minds Academy | Wellington, FL | 2020 - 2022

- Built operating systems for a new educational institution, including enrollment, communications, program management, planning, and repeatable workflows for growth.
- Balanced student, family, educator, and organizational needs while turning broad educational goals into clear processes and deliverables.

President and Broker

Tri Star Commercial Real Estate | Warrington, PA | 2001 - 2022

- Led operations and digital transformation across a multi-stakeholder real estate business, including CRM implementation, vendor relationships, standardized procedures, and complex project execution.
- Created scalable documentation and operating practices while managing competing priorities, deadlines, client relationships, and business risk.

JEWISH EDUCATION AND COMMUNITY LEADERSHIP

Religious School Teacher and Curriculum Developer | Temple Sinai, Dresher, PA (2000 - 2009) | Temple Beth Torah, Wellington, FL (2017 - 2018)

- Developed curriculum and taught K-7 learners; created technology-supported programs while building strong relationships with students, families, and community members.

Additional leadership: Temple Beth Torah cantor selection committee (2021), including stakeholder communication and selection-process coordination; communications chair for a local United Synagogue Youth branch; longtime participant in Jewish educational and communal life, including Camp Ramah in the Poconos.

EDUCATION AND CREDENTIALS

MBA, Management | Lehigh University College of Business | 2008

BA, Psychology | Temple University

Computer Science Certification | Massachusetts Institute of Technology

Secondary Diploma, Youth Leadership Certificate, and Jewish Educators Certificate | Jewish Community High School of Gratz College
